EXPERIENCE

Product Support Engineer

May 2024 – Feb 2025

Flipkart Private Limited

Bangalore

- Monitor and manage incoming support requests via email, diagnosing and troubleshooting issues using internal tools.
- Collaborate closely with developers and cross-functional teams to investigate, resolve, and prevent recurring technical issues.
- Automate repetitive tasks by writing scripts, improving efficiency, and reducing manual workload.
- Document technical issues, resolutions, and root cause analysis (RCA) in Jira and Confluence to maintain a knowledge base and enhance future problem-solving.
- Analyze system logs and performance metrics to identify potential bottlenecks and improve platform stability.

Junior Software Developer

Mar 2022 – Apr 2024

Learningbrite Technology Private Limited

Bangalore

- Developed and maintained frontend applications using React.js, JavaScript, HTML, CSS, and Bootstrap, ensuring an intuitive and responsive user experience.
- Increase User Interface render speed by 3%, reducing load times, and enhancing interactivity for a seamless browsing experience.
- Implemented reusable React components and state management techniques to improve maintainability and efficiency across multiple projects.
- Debugged and resolved frontend issues using Chrome Developer Tools, React DevTools, and Lighthouse to improve website performance and accessibility.
- Worked on backend development using Python and Django, supporting the e-commerce platform with API development and database management.
- Followed Agile methodologies by participating in sprint planning, daily stand-ups, and retrospectives to ensure timely project delivery.

EDUCATION

SRM Institute of Science and Technology

Chennai

Master of Computer Application

June 2023 – May 2025

Kamaraj College

Thoothukudi

Bachelor of Computer Application

Mar. 2017 – Mar 2020

PROJECTS

Ecommerce Website | React Js, JavaScript, HTML, CSS, Bootstrap, GitHub, Python, Django, Rest-API.

- Developed a responsive and user-friendly e-commerce platform that allows customers to browse products, add items to the cart, and complete secure transactions.
- Created reusable React components to ensure maintainability and scalability of the application.
- Developed RESTful APIs in Django to handle user authentication, product management, order processing, and payment integration.
- Ensured cross-browser compatibility and responsiveness using Bootstrap and CSS media queries.
